

## **Hard Evidence of Corporate Takeover at All Levels of Government in America, as Well as of the United Nations**

Dunn & Bradstreet (D&B) DUNS code number are assigned to corporations in America to track their credit ratings. Below you will find the DUNS numbers for the aggregate US government and each of its major agencies, those of the aggregate governments of each US state along with that of its largest city, and those of the aggregate United Nations and some of its major agencies. These corporate code numbers can be verified by using

the following link to the D&B website and typing in the required information:  
<http://mycredit.dnb.com/search-for-duns-number/>

In checking DUNS code numbers for governments, you will find that they have many subsidiaries, pension funds and shell corporations to lessen financial accountability. You will find that some of them are listed as being in a geographical location other than in their territorial authority, making their operations even more suspicious. The City of Chicago corporation, for example, is located in Washington, DC, the State of Montana Corporation is located in Chicago, Illinois and the State of Maine corporation – listed with seemingly sardonic humor as “State-O-Maine Inc.” – is located in New York City, New York. You will often also see executive, legislative and judicial offices and judges themselves listed as corporations.

Manta.com is a website for obtaining data on corporations. If the names of any of these government entities are entered, you will find that virtually all of them are listed as private, for-profit corporations. You will also see in the aggregate valuations of their assets that Manta.com provides is vastly greater than what is

listed in these private government corporations' fraudulent but well-publicized budget documents that seek to justify draconian but fraudulent budget cuts and their related tax-based extortion rackets.

This confirms that many hundred trillions of dollars of the people's money listed in the semi-secret government comprehensive annual financial reports (CAFRs) as government institutional investments are being siphoned off by the global banking cartel and those sinister forces behind it.

They are doing this via that obscure subsidiary of the private, for-profit Federal Reserve System known as the Depository Trust Clearing Center (DTCC), dba Cede Inc. (Again, note the sardonic humor.) This semi-secret entity fraudulently confiscates these investment funds as an executor after they have been registered by brokers, relegating investors to mere beneficiaries whose funds can then be lawfully – at least according to presently and commonly used Universal Commercial Code (UCC)-based statutory law, not constitutional or common law -- confiscated at the will of said executor of the criminal family.

The implications of this are staggering: not only has this corporate subversion of government happened in America and with the United Nations headquartered here, but it has happened in almost all of the nations of the world by means of similar corporate subversion enacted under different names. This definitely explains why governments at all levels in almost all nations no longer protect the public interest, but only special interests – specifically, the interests of their fellow predatory for-profit corporations whose actions are now destroying this planet and all life upon it.

This explains why the people of the world are soon going to see sweeping constitutionally-based lawful and law enforcement becoming law officers and new actions in all of the nations of the world against those who, unrepentantly abusing these ill-gotten gains, have perpetrated crimes against nature and humanity. This also explains the honest transitional governments and financial systems that are going to be installed as the callous, corrupt human systems of the past collapse. The new transparent governmental and financial models now being tested in the nation of Iceland, as well as the likewise poorly publicized/ contextualized mass resignations of government, banking and corporate officials now occurring worldwide are heralds of these imminent planetary events.

## The DUNSRight™ Process:

### The Power Behind Quality Information

DUNSRight™ is why our customers can be confident about their critical business decisions.

We define data quality by asking ourselves four questions:

Is the data accurate?

Is the data complete?

Is the data timely?

Is the data globally consistent?

To answer these questions, we take our data through a process we call DUNSRight™, in which we collect, aggregate, edit, and verify data from thousands of sources daily so that our customers can use the information to make profitable decisions for their businesses. Our ability to turn an enormous stream of data into **high quality business information** is what sets us apart from our competitors.

The foundation of DUNSRight™ is *Quality Assurance* which includes over 2,000 separate automated checks, plus many manual ones, to ensure the data meets our high quality standards. In addition, five quality drivers work sequentially to collect and enhance the data.

The process works like this:

*Global Data Collection* brings together data from a variety of sources worldwide. We integrate the data into our database through our patented *Entity Matching*, which produces a single, more accurate picture **of each business**.

We apply the *D-U-N-S® Number* as a unique means of identifying and tracking a business globally through every step in the life and **activity of the business**.

We use *Corporate Linkage* to enable our customers to view their total risk or opportunity across related **businesses**.

Finally, our *Predictive Indicators* use statistical analysis to rate a business' past performance and to indicate how likely the **business** is to perform that same way in the future.

The output of this extensive process? High quality **business information** embedded in our solutions that customers rely on - not just to be sure - but to be "D&B Sure.™"

### History

Dun & Bradstreet traces its history back to July 20, 1841, with the formation of The Mercantile Agency in New York City by Lewis Tappan. The company was formed to create a network of correspondents who would provide reliable, objective credit information. In 1933, The Mercantile Agency merged with competitor R.G. Dun &

Company to form today's Dun & Bradstreet. The HYPERLINK "[http://en.wikipedia.org/wiki/Data\\_Universal\\_Numbering\\_System](http://en.wikipedia.org/wiki/Data_Universal_Numbering_System)" to "Data Universal Numbering System" [Data Universal Numbering System](#) (DUNS) was invented in 1962.

## Why Is This Important?

Be “D&B Sure.™”

### Clearfield Doctrine

It is well settled that an officer must be elected, appointed or commissioned. Employees cannot be made officers “by virtue of their employment” unless they are employed by a governmental entity, but that proposition is merely color of law. In any case,

“Public office’ means any position in which the normal and usual duties are conducted on behalf of a **governmental entity**.” --Idaho Code 59-703(9).

The Clearfield Doctrine is explicit.

“ . . . the government descended to the level of a mere private **corporation** and takes on the character of a mere private citizen . . . For the purposes of suit, such corporations and individuals are regarded ***as an entity entirely separate from government***.” --*Bank of U.S. v. Planters Bank of Georgia*, 9 Wheat. 22 U.S. 904, *U.S. v. Erie Ry Co.*, 106 U.S. 327; *Clearfield Trust Co. v. U.S.* 318 U.S. 363 (1943).

## Protecting Civil Liberties through Judicial Process

“When governments enter the world of commerce, **they are subject to the same burdens as any private firm or corporation.**” --*U.S. v. Burr*. 309 U.S. 22; See 22 U.S.C.A. 286e. *Bank of U.S. v. Planters Bank of Georgia*, 22 U.S. 904 (9 Wheat. 904, 6 L.Ed. 244); C.R.S. 11-60-103.

“The government, by becoming a corporator, lays down its sovereignty . . . exercises no power or privilege which is not derived from the charter.”

--*Bank of U.S. v. Planters Bank*, 22 U.S. 904 (9 Wheat. 904, 6 L.Ed. 244) (1824).

“Governments lose their immunity and descend to level of private corporations when involved in commercial activity enforcing negotiable instruments, as in fines, penalties, assessments, bails, taxes, the remedy lies in the hand of the state and its municipalities seeking remedy.”

--*Rio Grande v. Darke*, 167 P. 241.

“The rule of governmental immunity as to all political subdivisions of government is hereby abrogated as it has heretofore been abrogated as to municipal corporations, i.e., cities. No longer is the defense of governmental immunity for tort liability available, irrespective of whether the involved political subdivision is functioning ‘governmentally’ or ‘proprietaryly’.”

--*Myers v. Genessee County*, 375 Mich 1, 1965.

“The principal of sovereign immunity is not one which allows the sovereign to continue to inflict injury.... [sovereign immunity] does not give the sovereign the right to totally disregard the effect of its actions upon the public.”

--*Shaw v. Salt Lake County*, 224 P2d 1037.

“Sovereign immunity does not apply where (as here) government is a lawbreaker or jurisdiction is the issue.”

--*Arthur v. Fry*, 300 F.Supp. 622 (1960).
